Model: P 6/1

Professional 6 - channel dimmer Light Theatre and Stage

Technical data:

Channels: 6

*Load each channel : to 25 Amp , 3,5 KW
permanet load, protection: C 25 Amp*

Supply : one phase 150 A max, 130 V to 264 V

Analogue Inputs: setting for 0/+10 V operation:, current 0,8 mA

Suitable for resistive and inductive loads,

Acoustic noise: norm TV/Studio

Rise Time: 310 uSec@ 240V 16 A

Dimensions: 19" x 2U (483 mm x 88 mm)

depth from the front 333 mm

Net Weight: 15 kg

Fan cooling airflow start 45 grad Celsius

*Is located on the front LED indicates activation of the wash
cycle each and every channel(220V-true output)*

and switch 0 or 100% control

On rear panel screw connectors

*Optionally, the driver may even be equipped with a system
diagnosis*

and control the system's Ethernet

*Options also provide the standard external DMX
not to heat during operation of the controller*
